

**worker
solutions**

train workers to be more efficient

Jordan A

teach workers to make orders faster

Jordan A

teach workers how to make orders in the correct order

Jordan A

hire better employees

**personal
solutions**

order further ahead of time

Jordan A

risk food being cold

accept the wait

app solutions comparing

update the app to be more accurate with wait times

have the app notify you x minutes before your food is ready

app gives you more accurate time your food will be done at

app wont say order is done when it is not

compare the making orders systems to other food in russle house

compare making order systems to others paneras

compare the wait times for other paneras

delivery

make delivery cheaper

make delivery more accessable

be able to deliver to more locations

make delivery times more accurate

obstacles

robots are not able to devlier everywhere on campus

smaller orders may be being made first
